REPORT

—OF THE—

Comptroller of the Treasury

—OF THE—

STATE OF MARYLAND

TREASURY DEPARTMENT, COMPTROLLER'S OFFICE,
ANNAPOLIS, January 4th, 1906.

To the General Assembly of Maryland:

Section 9 of Article 19 of the Code of Public General Laws prescribes that there shall be submitted to your Honorable body "a statement of the funds and the revenues of the State and of the public expenditures," and, in accordance with such requirement, I herewith submit my annual report for the fiscal year ended September 30, 1905.

RECEIPTS.

The total gross receipts of the Treasury proper, as shown in Statement A, are $4,493,354.34, to which must be added the balance on hand September 30, 1904, of $1,486,228.86, aggregating $5,979,583.20.

This sum is the largest amount ever received into the Treasury of the State during a like period, but does not represent, however, the ordinary receipts or working capital of the State. In said Statement you will notice an item of $600,000, which is a part of the proceeds of the sale of Bonds authorized under Chapter 228 of the Acts of 1904, known as the "Public Buildings Loan," the total amount authorized being $1,625,000, which will be more fully discussed under the title of "State Debt."

Therefore, there should be deducted this sum of $600,000 from the actual receipts for the year, viz: $4,493,354.34, leaving $3,893,354.34 as the ordinary revenue. By a comparison with previous years, this will be shown to be a marked increase, and while there is an augmentation of $28,000 from Licenses and Tax on Insurance Companies and of $34,000 from Tax on Gross Receipts of Corporations, yet the largest increase accrues from the increased State Tax rate made by the Legislature of 1904, Chapter 343.

The State Tax rate for the years 1901, 1902 and 1903 was 17 cents on each $100, and for thirteen years prior thereto 17¾ cents, while for 1904 it was 22½ cents and for 1905 23½ cents, or an increase of 6½ cents on each $100 over that of the years 1901, 1902 and 1903, the Public School Tax being increased from 10½ cents to 15 cents, while 2 cents additional were levied to take care of the "Public Buildings Loan." Such an increase in the rate—6½ cents—necessarily augmented the revenue to Public Schools and the Sinking Funds, the amount received into the Treasury from Collectors alone amounting to $1,564,975.71, while the tax from Incorporated Institutions was $125,215.87. It must be borne in mind, however, that this increased revenue is applicable only to the purposes for which it is levied, viz: Public Schools, School Books and Sinking Funds, not one cent of which can be drawn upon for the ordinary expenses of the government, such as salaries, cost of Legislature, etc., a fact very often lost sight of by those applicants for State aid who suppose the State Treasury to be inexhaustible.

DISBURSEMENTS.

While the revenues of the State have increased as above shown, the payments from the Treasury have likewise been much heavier, aggregating last year the unprecedented sum of $4,462,701.42, or an increase of $384,691.27. This is occasioned mainly by the large disbursements to the Public Schools of the State, amounting during the last fiscal year to $1,195,565.22.

In Statement B is shown the character of these disbursements and the Acts of Assembly authorizing the same. At the close of

the fiscal year, viz: September 30, 1905, there remained in the Treasury proper a balance of $1,516,881.78. This large balance no doubt appeals to you as being far in excess of the actual needs of the government, and if so, might have a tendency to beget a too liberal policy on your part. Do not be misled by the figures themselves. Against this large balance there is chargeable certain moneys coming into the Treasury which cannot be diverted from the purposes for which they were received, viz: proceeds from Bond issues, and taxes collected for both Public Schools and Sinking Funds. Therefore, there must be charged against this balance of $1,516,881.78 the following accounts, with the amounts which stood to the credit of each at the close of the fiscal year:

Public Buildings Loan	$487,802.32
Public School Tax	444,796.24
State Loan of 1902	4,428.16
Total	$937,026.72

leaving only a balance of $579,855.06 with which to meet the other expenses of the State.

I would again direct your attention to another very important fact—the time of this balance, October 1. Our fiscal year begins at this time, a period at which the appropriations of the State government become available; therefore, the demands upon the Treasury are exceedingly heavy, made so by the fact that the regular quarterly distribution of $200,000 of the Public School Tax is made on October 1, and for the further reason that many institutions demand their money on that date, notwithstanding all appropriations are made subject to the condition of the Treasury, and that the Treasury officials have the right to make payments any time within the fiscal year unless the Act specifically provides a different mode. Therefore the October, November and December disbursements are always among the heaviest of the year, so that the balance on hand January 2, 1906, after the payment of the interest on the public debt, say $133,000, will be far below that of October 1; indeed barely sufficient to meet the expenses of the Legislature and provide for the other demands of the State.

FREE SCHOOL FUND.

In Statement E will be found in detail the receipts and disbursements on account of this Fund, while the stock or investment account will be found in Statement F-A. The receipts for the fiscal year, including the balance of $8,070.30 brought down from the preceding year, were $80,024.49, while the disbursements distributed to Baltimore City and the various counties were $71,516.49, leaving a balance at the close of the fiscal year to the credit of this Fund of $8,508.00.

SINKING FUNDS.

Statements E and F show in detail the several transactions of these funds. You will notice there is no cash balance carried down into the next fiscal year to the credit of any of these funds, so that all moneys received were invested immediately without loss of interest. The total receipts, including a cash balance brought down from the preceding year of $100,000, were $755,000, all of which was invested in the very highest grade of securities—State of Maryland Bonds—viz:

Consolidated Loan of 1899	$155,000.00
Public Buildings Loan	600,000.00
Total	$755,000.00

Two factors enter into the above result, which must be carefully borne in mind, for such exhibit is abnormal.

The gross receipts of $755,000, including the cash balance of $100,000 brought down from the previous year, also included a stock receipt of $155,000 and a further cash receipt of $2,325, which represents the stock and cash proceeds of sale of the State's interest in the Chesapeake and Ohio Canal Company.

After due notice by public advertisement, the Board of Public Works called for sealed proposals, to the highest bidder, for all the State's interest in the Chesapeake and Ohio Canal Company. When the bids were opened it was found that Fairfax S. Landstreet was the highest bidder therefor—$155,000—and his proposal was accordingly accepted, he tendering on January 17, 1905, to the State, as prescribed by Section 3 of Article 12 of

the Constitution of Maryland, a like amount of the Bonds of the State, in this case, Consolidated Loan of 1899. Inasmuch as these Bonds were then selling upon the market at 98½, he paid to the State the difference between the market and par value, or $2,325 in cash, which sum was accordingly carried to the credit of the Consolidated Loan of 1899 Sinking Fund.

In Statement F is shown the stock exhibit of the seven Sinking Funds, with the Bonds standing to the credit of each, aggregating the sum of $3,301,587, or an increase over the year previous of $655,000.

OYSTER FUND.

The condition of the Oyster Fund is fully shown in Statement H, and is far from satisfactory. While the statement shows a balance on hand of $5,162.51, yet as a matter of fact the fund was not self-sustaining, and bills, pay-rolls, etc., amounting to $10,000, were compelled to be carried over and paid out of the receipts for the season of 1905-06. It is absolutely impossible to maintain the State Fishery Force upon a revenue of $45,000 per annum. Notwithstanding the economy practiced by Commander Howard, and he has given to the service his undivided and personal supervision, this condition is manifestly apparent by diminution of revenues alone. A statement of the receipts on account of this fund is only necessary to demonstrate this contention:

1901	$74,974.32
1902	73,359.02
1903	59,655.17
1904	39,989.16
1905	45,623.22

The indicated receipts for the season of 1905-06 will not exceed, if equal, those of 1905. Therefore, it is absolutely necessary that your Honorable bodies shall take such intelligent action as shall preserve one of the greatest industries of the State.

STATE DEBT.

The funded debt of the State amounting to $8,526,926.13 is shown in Statement J, or an increase during the year of $600,000, but by reason of the sale of the State's interest in the Chesapeake and Ohio Canal Company and the purchases for the Sinking Funds, the net debt is $3,087,869.13, or an actual reduction of $55,000 during the fiscal year.

The increase of $600,000 above noted was a part of the amount authorized by the last Legislature, Chapter 228, known as the Public Buildings Loan. That Act provided for the issue of $1,625,000 Maryland State Bonds for the purpose of completing and repairing the State House at Annapolis, and for sundry other public buildings in the State, and in order that you may see at a glance the purpose for which issued, I herewith submit the following exhibit:

State House at Annapolis	$ 600,000
Maryland House of Correction	200,000
Springfield State Hospital	200,000
Maryland Asylum and Training School for Feeble-Minded	66,000
Maryland Agricultural College	57,000
Maryland Hospital for the Insane	53,000
Cambridge Hospital	10,000
Charlotte Hall School	5,000
St. Mary's Academy	5,000
St. Mary's Female Seminary	4,000
Maryland Institute	175,000
Relief Fund Commission	250,000
Total	$1,625,000

Eight hundred and twenty-five thousand dollars of this Loan was issued during the fiscal year 1904, or a sufficient sum to meet the needs of the institutions above mentioned. During the past fiscal year there was issued the additional amount of $600,000, making the total issue to date $1,425,000, as shown in Statement J. This completes the entire issue save $66,000 to the Maryland Institute, which will be sold and taken by the State whenever the needs of the said Institute demand the same, therefore making the entire issue $1,491,000, instead of

$1,625,000, as authorized. This difference of $134,000, or a saving to the State if you please, was made by reason of the appropriation of $250,000 to the Relief Fund Commission, Chapter 129 of 1904, on account of the disastrous conflagration in the City of Baltimore in February, 1904. This appropriation was provided for in the Bond issue above mentioned, as well as the appropriation of $20,000 to the Johns Hopkins Hospital for each of the years 1905 and 1906. Only $116,000 of this Loan was issued, and for your instruction, as well as for future reference, the following statement of the Relief Fund is herewith submitted:

1904.			
July 1,			
	Bonds sold	$100,000	
	Premium on same	2,165	
			$102,165.00
	Contra:		
1904.			
March to November,			
	Cash paid for Militia and relief	$ 80,430	
Dec.,	Johns Hopkins Hospital	20,000	100,430.00
	Balance		$ 1,735.00
1904.			
November,			
	Cash returned by Commission		1,787.61
	Balance		$ 3,522.61
	Balance to Johns Hopkins Hospital		16,477.39
	Credit Johns Hopkins Hospital, Fiscal Year 1906		$ 20,000.00

The $477.39 of course was paid as a direct appropriation under Chapter 129 of 1904, leaving the issue of Bonds $116,000 instead of $250,000.

While the gross debt of the State is $8,526,926.13, yet the State holds in its Sinking Funds $3,301,587, and other available assets, the par of which is $2,137,470, leaving as the net debt of the State $3,087,869.13. These available assets have a value far in excess of their par value, and in my judgment, should be sold whenever a fair price for the same can be obtained, and the

securities thus obtained used to liquidate the State debt. While it would not entirely wipe out the State debt, yet it would so materially reduce the same that a tax sufficient to maintain it would not be burdensome as the 6½ cents together with the other 16¾ cents, making a State tax of 23½ cents on each $100, now manifestly is.

In this connection permit me to quote from my report to his Excellency, Edwin Warfield, Governor of Maryland: "I deem it advisable, however, to call your attention to the rapidly increased funded debt of the State, and the purposes for which loans have been authorized, within the past six years, viz:

Maryland Penitentiary	$ 950,000
State House	850,000
Springfield State Hospital	580,000
Fifth Regiment Armory	420,000
House of Correction	370,000
Court of Appeals Building	290,000
Maryland Institute	175,000
Relief Fund Commission	250,000
Heating Plant at Annapolis	140,000
Maryland Asylum and Training School for Feeble-Minded	66,000
Maryland Agricultural College	57,000
Maryland Hospital for the Insane	53,000
Cambridge Hospital	10,000
Charlotte Hall School	5,000
St. Mary's Academy	5,000
St. Mary's Female Seminary	4,000
Total	$4,225,000

"While I share with you, as well as every other citizen, a just pride in the public institutions of this State, for they are among its most valued assets, yet due care should be taken lest we allow State pride to lead us beyond our actual needs and the limit of conservatism. As we increase and enlarge our public institutions, we of necessity increase the cost of their maintenance, and unless a limit is placed, such maintenance must be either helped by a direct tax or the Treasury relieved of the burdens of some of its other appropriations."

ASSESSMENT AND LEVY OF 1905.

The assessable basis of the State, $705,561,456, continues to show a very healthy increase—$24,817,662. Of this increase Baltimore City shows a gain of $20,539,991. When we consider that the assessable basis of the State twenty years ago—1885—was only $478,468,028, it will be readily seen how fast the State has increased in material wealth and prosperity. This wealth, however, as far as the State's revenues are concerned, is useable only for the Public Schools, School Books, and the Sinking Funds.

PUBLIC SCHOOLS AND FREE SCHOOL BOOKS.

Statements L and M show the receipts and disbursements on account of these funds. There was distributed during the year to the Public Schools of this State, the unprecedented sum of $1,195,565.22, or a gain of 62 per cent., by far the largest amount ever disbursed. During the year this fund has felt the full operations of the law of 1904, Chapter 584, whereby the rate was changed from 10½ cents to 15 cents on each $100. If this rate remains it must necessarily produce more revenue, for as the basis increases each year, so must the collections, not only on account of such increase, but necessarily so from arrearages. Therefore, we may readily expect to see this fund in the next two years approach the million and one-quarter mark, provided the present rate is maintained. There was disbursed during the year on account of Free School Books the sum of $150,000, although the tax of 1¾ cents produced but $127,832.33. The amounts, therefore, distributed to Baltimore City and the several counties from these two funds were $1,345,565.22, the taxes levied therefor being 16¾ cents, or within ¼ of one cent of the whole State tax for the years 1901, 1902 and 1903. In addition to this, the State paid during the year just closed $32,600 to Manual Training and Industrial Schools, $32,500 to Academies and High Schools, all of which came out of the general Treasury, while there was distributed on account of the Free School Fund the sum of $48,566.49. In view of these facts,

it does appear that the State is doing its full measure, if not more, towards maintaining the Public Schools of the State. Anything further than this, in my judgment, should be provided for by local revenues. Indeed, I am fully convinced that the entire State Public School Tax, now 15 cents, and 1¾ cents for School Books, should be reduced to 15 cents, and from the revenue thus produced deduct first the sum of $100,000 for Free School Books, distributing the same as now provided by law, the remaining sum, which will be over $1.000,000, to be distributed in accordance with Chapter 584 of the Acts of 1904. This would reduce the State tax rate 1¾ cents without injury to Baltimore City or any County in the State; indeed Baltimore City contributed to these two funds $141,896.68 more than it received.

The advocates of the new School Law asked for such a tax rate as would produce $1,000,000 per annum. Fifteen cents will not only do this but care for the Free School Books as well, and I therefore recommend your Honorable body to pass such a bill, and thus relieve the taxpayers of this 1¾ cents.

PUBLIC HIGHWAYS.

The Legislature of 1904, by Chapter 225, provided for the improvement of the public highways by an Act entitled "An Act for the improvement of the public highways of the State and to provide the means therefor."

Unfortunately for the success of the measure, the only means provided therefor was a direct appropriation from the State Treasury as follows:

"Section 16. And be it enacted, That the sum of two hundred thousand dollars annually, or so much thereof as may be necessary, be and the same is hereby appropriated out of any money in the Treasury not otherwise appropriated, for the purpose of carrying out the provisions of this Act."

I have endeavored in these remarks to present to you the full and true condition of the Treasury of the State. From such presentation, it becomes very manifest that the Treasury cannot stand this very large appropriation, and the Commission was

so advised by me. While the question of "good roads" appeals to every intelligent citizen, and wisely so, yet the means to provide for their construction is the vital one for your consideration. The State cannot meet this appropriation now with its present revenues and obligations. Therefore, it is for your Honorable body to provide other sources of revenues or materially reduce the present level of expenditures.

In my judgment, it would be unwise to levy a direct tax, which means at least an addition of 3 cents to the present 23½ cents. Unwise, because the present State tax is now too high, and for the further reason it would be manifestly unfair to Baltimore City. While the said City enjoys the benefit of the very large appropriations to the various institutions within and near its borders, yet its people have contributed of their substance, and willingly so, far more towards maintaining the Public Schools than they have received, and to call upon them now to contribute more than half of the expenses in building highways throughout the counties of the State, while they receive nothing in return for their own streets would, in my judgment, be manifestly unfair. Therefore, to make this Act effective, you must either provide other sources of revenue, by direct or indirect taxation, or reduce expenditures.

CONCLUSION.

If, in your judgment, you deem it wise that the State tax rate should be changed, permit me to respectfully offer this suggestion:

Under the new Charter of Baltimore City, the tax levy is made up and imposed in the month of December for the year succeeding, while a large percentage of the taxes is paid in the January following. Inasmuch as the State taxes are levied and collected at the same time, it therefore becomes manifest that the City authorities might levy a tax the rate of which the next Legislature might change. This condition did occur in December, 1903, the City levying at that time and collecting in January the State Tax of 17 cents for the year 1904, while the Legislature in March passed a different tax rate—22½ cents.

In order to avoid this confusion, if you should deem it best to change the rate, it could be done by making the rate effective for and after the year 1907.

It has been my endeavor in these remarks to present a plain statement of the financial condition of the State. While the exhibit is most satisfactory, demonstrating clearly the healthy condition of the Treasury, yet it is as clearly shown that the revenues of the State are barely sufficient to meet its demands. May I therefore urge upon you the strictest economy, not only in the matter of the expenses of your Honorable body, but also in weighing carefully every appropriation that shall come before you, to the end the results of your deliberations may be crowned with wise, beneficial legislation.

I cannot close these remarks without expressing my warm appreciation of the wise and intelligent interest manifested in the fiscal affairs of the State by his Excellency, Edwin Warfield, Governor of Maryland, whose long business training and sound judgment has rendered to the State and to me invaluable aid.

To the Hon. Murray Vandiver, State Treasurer, with whom I have been associated for the past two years, my thanks are also due. His long experience as a financial officer of the State has qualified him to be of great assistance to me.

To my Chief Clerk, Harry J. Hopkins, Esq., I am especially grateful. His long experience in the Comptroller's office has qualified him to render me assistance I consider invaluable. To him and the several clerks in my department whatever merit is herein found is gratefully shared.

Respectfully submitted,

GORDON T. ATKINSON,
Comptroller.
